

Trekker™

PORTABLE SPACE HEATER

Heating a small area has never been this easy. The **Trekker** portable diesel heater delivers the ultimate in clean, efficient heat and requires no electricity. A diesel heater means low maintenance, simple to light and operate, with no chopping wood or hauling heavy propane tanks as with other types of heaters. On low, the heater will operate for eight hours on half a gallon of readily available diesel fuel. There's no getting up at night to feed your wood stove or change propane tanks and harmful exhaust gases are vented through an exhaust stack for safety. All steel construction means a durable and reliable product that will provide years of trouble free service. **Trekker** heaters will keep you warm and comfortable when hunting, fishing or when you need emergency heat. The **Trekker** is also perfect to heat trailers, small garages and workshops.

The **Trekker** is designed to be small (12"W X 16"H X 15" D) and lightweight (16 lbs.) for easy portability. The heater uses a vaporizing burner and is controlled by a fully adjustable fuel regulator. The heat output can be adjusted from 4,000 BTU/h to 12,000 BTU/h (0.12 US gal/h fuel consumption on high). The **Trekker** also incorporates multiple operational safety features such as a patented non flooding burner, fuel regulator with overheat protection, and a fuel shutoff valve. A galvanized heat shield is attached to the heater to protect the user from incidental contact.

Floor Size Heating Ability	Low Setting	High Setting
Room with poor insulation, temperate/mild weather	144 sqft	400 sqft
Room with poor insulation, cold weather	100 sqft	300 sqft
Room with avg. insulation, temperate/mild weather	160 sqft	440 sqft
Room with avg. insulation, cold weather	144 sqft	400 sqft
Tent with no insulation, cold weather	64 sqft	100 sqft

*General guideline for portable structure/building with 8 foot ceiling only. Other factors like quantity and size of windows and exterior walls will affect above numbers.

Features:

Portable, Durable Design
Lightweight and Safe
No Electricity Required
Certified to CSA/UL Standards

Optional Accessories:

Fuel Jerry Can 10 Feet Fuel Supply Line with Filter
3" Exhaust Kit For Temporary Structure or Tent Use Only

Includes:

Galvanized Steel Heat Shield
3" Exhaust Opening
Natural Draft Vaporizing Burner
Primer Bulb

Burner Cleaning Tool
Steel Construction
Fuel Regulator
Draft Regulator

Exhaust Adapters (4", 5", 6")

ITR Burner Technology is used by the US Military
