THE OASIS DISTRIBUTION MODULE: THE SIMPLEST WAY TO ADD SPACE HEATING AND DOMESTIC WATER HEATING TO THE OASIS CH-50 HEATING MODULE

The Distribution Module provides the following features:

- 1) Supports dual circulation loops
- 2) Engine/heating system interface to allow use of engine waste heat
- 3) Domestic water heat exchanger for continuous hot water
- 4) Automatic winter/summer loop control
- 5) Domestic water temperature control
- 6) Convenient filling manifold for coolant
- 7) Compact design. Measures 11"Hx14"Wx6.5"D and weighs 29 lbs.

All of these features are automatic with minimal user input.

Due to our commitment for quality and on-going product improvement, ITR reserves the right to modify or change without notice, any materials, applications, equipment, accessories and/or prices. All measurements and weights are approximate.
