Advanced Diesel Heating & Hot Water Solutions

Touchscreen Remote

Enhance your coach or marine heating system

OASIS[®]

Hydronic Heating Systems

Hurricane[®]

Hydronic Heating Systems

Intuitive, easy to use and **state of the art.**

International Thermal Research continues to refine the **HURRICANE** and **OASIS** heating systems with the introduction of a touchscreen remote. The easy to use touchscreen remote is another advancement to a line of heaters already renowned for their safety, reliability and efficiency. The touchscreen remote is compatible with select **OASIS** and **HURRICANE** heaters, including the next generation of **OASIS** coach heaters, the **NE** and **NE-S**.

- OASIS NE
- OASIS NE-S
- OASIS CH50
- OASIS COMBI

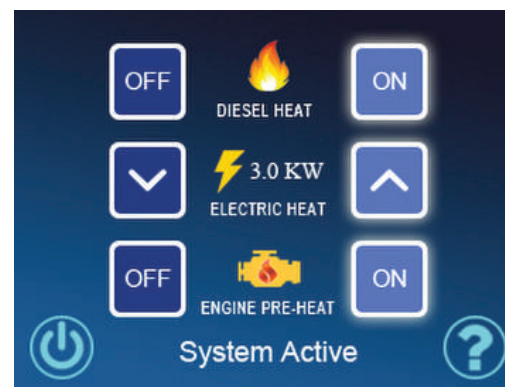

- HURRICANE COMBI
- HURRICANE H2
- HURRICANE H2L

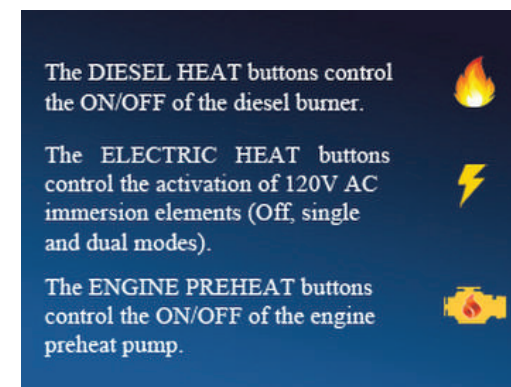

ITR Heaters are supported by more than 160 dealers and service centers in the US, Canada, and the UK.

ITR's advanced touchscreen remote is designed with the user in mind. An easy to use interface displays system controls, a help menu, fault detection, and fault solutions, all controlled with a simple touch of the screen.
